

## Rotary Table Box Filling Carousel

**Three standard sizes available (1350, 1650 and 1950mm dia)**, catering to various production needs while featuring a durable PE500 base for long-lasting performance. Operating on single-phase power, it offers convenience and ease of integration into existing setups.

This box filling carousel is equipped with advanced automation features to optimize workflow and enhance productivity:

- Easy setup with a Mitsubishi HMI Screen
- Up to 12 box filling positions
- Program interruption (replace filled boxes halfway through cycle)
- Variable box quantities if different box sizes are needed
- Part counting via machine signal
- Adjustable conveyor stop time (during carousel move)
- Efficient 100W single-phase motor
- E-stop on control box (built-in Omron e-stop system)
- Mitsubishi PLC
- 100v – 240v input
